TESTIMONIAL

I had been searching for my brother for over 10 years. I knew that he had died in 1983, but I wanted to find out about his life, and if I had any relatives that I did not yet know. I had tried everything, on-line searches, Mormon web sites, even the Social Security Administration. Another private investigator had told me it had been too long, and most likely I would never get any information. I was about ready to throw in the towel then I met Taylor Kindred, of Acute Investigations LLC.

Taylor told me he thought he could help me, and he sure did! Taylor was able to locate a niece and a nephew that I never knew existed. I now talk to both of them regularly, and they share great stories of my brother with me. If I ever need a PI again, Taylor will be the man. I called Taylor, and thanked him, and shared this story with him and his wife. Thank you Taylor!!
